12 3 SHIRES STAGES

Issues with the proposed route discussed, plans propose all routes are run from the opposite direction to previous years. Comment from parishioner submitted in writing to Councillors regarding route issues -

Concerns raised about the route from Clenchers Mill Lane to Camers Green, cars leave the road on the bend and end up in a residents front garden demolishing the wall and hedges, this is of higher concern with cars travelling at high speed from the proposed direction.

Council will inform organisers of the noted issues.

14 TRAFFIC CALMING

Request for Council to consider traffic calming measures discussed. Noted effect of measures on local agricultural traffic. The 20mph speed initiative includes traffic calming measures. Chicanes/Speed bumps are expensive to install and require a TRO at approximate cost of £10,000 although this can possibly be match funded.

Council will wait for further information on the 20mph speed initiative as this will be more financially viable for the Council.
